Production notes

Files are organized for design, digital product and print handoff.

SVG	Source-derived raster icon in SVG; editable text. Separate approximate vector icon.
PNG	Source-derived transparent icon, lockups, app tiles and favicon sizes.
ICO	Multi-size favicon for browsers.
Reference	Option 03 crop and the full Sapphire Flow variations board.

SOURCE FIDELITY AND RIGHTS

Main icons were extracted from option 03 in the supplied raster board. SVG files embed that raster icon; the separate vector icon is an approximation. Wordmark typesetting is reconstructed. Original vector masters would improve scale and fidelity. No rights clearance is asserted.
